

CONNECT™

REINKE PRECISION MANAGEMENT

SIMPLE, YET SMART

Always stay one step ahead with the RPM Connect main control panel. Designed with today's progressive farmer in mind, this panel utilizes remote control technology to operate pivot systems. With only basic functions available on the panel, the Connect is still equipped with all the advanced control options necessary to keep you connected.

Features and Benefits

Flexibility

Control with any smart device or utilize basic controls on the panel

Economic Value

Eliminates unnecessary components for a reduced overall cost

Versatility

Available with new systems and as a retrofit

5 Year Warranty

Unmatched reliability and durability

ReinCloud-Ready®

Remote Access

Monitor and control pivot without being at the panel

Increase Efficiencies

Manage multiple systems from one dashboard

Ease of Mind

Receive notifications when there's a change in the systems status
